**DIAGNOSIS APPARATUS AND METHOD OF FUEL  
PUMP FOR INTERNAL COMBUSTION ENGINE**

**REASONS FOR ALLOWANCE**

The following is an Examiner's statement of reasons for allowance:

Claim 1 has been found to be allowable over the prior art because the prior art fails to teach or suggest a diagnosis apparatus of a fuel pump for an internal combustion engine comprising:

a diagnosis signal output device that outputs a signal to indicate a failure of the fuel pump motor unit when the diagnosis by the second diagnosis device, as defined by the claim, is that the motor unit is abnormal, and outputs a signal indicating a failure of the pump unit of the fuel pump when the diagnosis by the said second diagnosis device is that the fuel pump motor is normal.

Claims 2-7 have been found to be allowable over the prior art due to said claims' dependency on claim 1.

Art Unit: 2855

Claim 8 has been found to be allowable over the prior art for the same reasons as presented above with respect to claim 1. Furthermore, claim 8 has been interpreted in view of 35 USC 112, sixth paragraph.

Claim 9 has been found to be allowable over the prior art because the prior art fails to teach or suggest a diagnosis method of a fuel pump for an internal combustion engine comprising:

outputting a signal to indicate a failure of the fuel pump motor unit when the diagnosis, as defined by the claim, is that the motor unit is abnormal, and

outputting a signal indicating a failure of the pump unit of the fuel pump when the said diagnosis is that the fuel pump motor unit is normal.

Claims 10-14 have been found to be allowable over the prior art due to said claims' dependency on claim 9.

Any comments considered necessary by the Applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
